

## **Gill Local Cultural Council Survey**

**The goal of the Gill LCC is to use public funds to support activities Gill residents enjoy. We have about \$5000 a year to spend and we are eager to use it in ways that Gill residents appreciate and support. Please take a moment to fill out this survey and give us some guidance! You can turn it in at the reception desk when you leave, or drop it off at the Town Hall or Library later.**

**1. The Gill Local Cultural Council has funded events such as the following:**

Concerts at Antenna Cloud Farm \_\_\_\_\_

Drama at the Lava Center in Greenfield \_\_\_\_\_

Historical/Geological talks such as the one on Robert Darr Wert or by Richard Little \_\_\_\_\_

Fall Festival on the Common \_\_\_\_\_

Concerts on the Common \_\_\_\_\_

Performances at the Shea or other local venues \_\_\_\_\_

Books about local history and people \_\_\_\_\_

Town Dance \_\_\_\_\_

Franklin County Pride Parade \_\_\_\_\_

Dance at the Gill School \_\_\_\_\_

Annual Pocumtuck Festival – Turners Falls \_\_\_\_\_

Other \_\_\_\_\_

**Please check any of the above that you have attended.**

**2. Have you ideas for other kinds of events we could fund? Please suggest some you would like to see happen.**

**3. Are you yourself an artist, craftsperson, photographer, performer, writer, historian/cultural practitioner; (or do you know a Gill person who is)? Please let us know your name and contact info so we can invite you to apply, or so we can feature your work in some way.**

**4. The funding priorities of the Gill LCC include the following:**

- create ample opportunities for cultural/artistic expression and experience for all residents
- engage a variety of performers, artists, historians, naturalists, speakers, musicians and workshop presenters
- fund projects which are generated by a Gill resident or in partnership with an organization or venue in Gill or an adjoining town.

**Are there other priorities you think we should have? Please make suggestions on the back if so. Thank you for taking a moment to provide your input!**
